Strategic Areas / “Next Steps” / God Sized Dreams / Objectives

As you consider these possible “next steps” (or 3-5 goals for 3-5 years), do these ring true?

How these strategic areas get us closer to God’s Vision for the congregation?

What goals/ areas are missing?

Get into a “goal group”

Imagine how your church’s existing committees or teams could impact the strategic objective/area.

What actions should we take that we have not been taking so far (*or major modifications of current actions*) that will improve each of the areas we have identified?

Write a “so that” statement to support the strategic objective
